## MEA Ductile Iron Grate

### Specification:

Watts DLG-EG20-DI heavy duty iron grate, load classification C for pedestrian areas, waysides, parking areas, commercial and private garages, car service stations and private car parks.

**Note:** Any cast iron or ductile iron surface should be expected to show rust, even with an applied coating. Metal grating specified in a high visibility area should be galvanized or stainless steel. Optional galvanized or stainless steel frame guards are specified to match the frame to the grating, and maintain a uniform appearance.

\* See Watts Dead Level® Trench Drains catalogue for complete information.
